

## **COMMUNITY PROJECTS ASSESSMENT CRITERIA**

These are some of the things we take into account when considering a community project.

- Benefits a local non-profit group
- Is within the capacity of Shed facilities and member's skills.
- Provides positive outcomes for the community.
- Does not compete with local businesses.

Most projects are done at the Shed but some are undertaken at the community group site.

We ask the customer to pay for materials and may add a modest additional charge to cover time and labour.

We ask our customers for permission to include the project in our publicity and request they mention us in theirs'.

As the Shed has very limited storage space we are restricted in the size and number of projects we can undertake at any given time.
