Many Hands Make light Work!

Our Office Manager Don Morrison has done a tremendous job over many years to keep the wheels turning in our shed.

But its now time for him to step aside.

The Governance Committee has decided to break the job up into several parts to make it easier for all..

Parts of the job that have already been taken up are;

Denis Sullivan has agreed to take over purchasing consumables .

Terry Oaks will take over updating and analysing the attendance records.

David Cope will manage the rubbish disposal and recycling programme.

We are delighted that these members have offered to take over these roles

Many hands make light work for everybody.

If you have admin skills and would like to be part of the Shed Admin Crew please talk to Mal or Don.

How To Protect Your Stuff!

The stealing season is amongst us. We suggest you engrave your tools with your Drivers License number. This gives the Police a way to trace the owner and grounds for them to search . A very wise choice to help the Police help our commmunity by giving them the tools to convict. We have engravers at the Shed if you would like to label your tools.

Talk to Peter Montgomery or look around the Mezzanine model shop.

Projects

Ukelele Born in the Shed

Mark Jones's latest creation in the shed is this neat little Ukelele. Materials used were Walnut in the neck, Pohutakawa in the soundboard and back, Moreton Bay fig in the fingerboard and Rewa Rewa in the sides . The engraving was done on his laser. Pretty slick creation. Now all he has to do is polish up his playing skills!
